Agentic AI CV • meetjoz.com

Fortune 500 Expertise

Hyperscale AI Ecosystems

Fortune 500 FinTech/InsurTech, Fortune 50 Technology, Fortune 50 MedTech/HealthTech, Ogilvy, WPP Singapore/Asia Pacific, Leo Burnett, Publicis Singapore/Asia Pacific, Mediacorp Singapore, Dubai Future Foundation, Apple HQ, and Stanford d.school in Silicon Valley

Global Scale

Worldwide Impact

North America, Europe/EEA, United Kingdom, UAE/MENA, Singapore, Japan, Greater China, Australia, and the wider Asia Pacific region

Applied AI Skills

Agentic AI Architecture: Agentic intelligence systems, autonomous reasoning, and orchestration • LLMs, RAG, embeddings, vector search, knowledge graphs, and context engineering • Memory architectures, retrieval systems, ACL-aware access, verification, and feedback loops • Event-driven production AI and asynchronous workflows • Data platforms, secure API ecosystems, and cloud-native platforms • Observability and AI governance

Agentic AI UX Orchestration: Self-organising AI metamaterials • Context-aware multimodal interactions (voice, touch, gesture, gaze, and haptics) • Telemetry and behavioural data powering agentic feedback loops • Real-time signals mapped to human mental models • Volumetric AI interfaces • NLP/CV-driven personalisation with intent modelling and semantic retrieval • Anticipatory, predictive, assistive, and autonomous decision-making intelligence

Professional Experience

Agentic AI Architecture and Innovation Leader

Singapore, Dubai, Zurich and Europe/EU/EEA 2018–Present

- MarketClue USA: Architected financial AI agents with live data/asset portfolios.
- ArtKorero: Pioneered spatial AI for world-class art exhibitions in Dubai.
- Versace/SOA: First in Dubai to design and launch spatial AI with volumetric 3D UI.
- Dubai Future Foundation: Rapid AI prototyping for UAE innovation initiatives.
- Erste Bank: Drove Engineering/EU Accessibility, serving 16M+ customers.
- 20+ Dubai/Singapore FinTechs: Led HCD-AI, product, and data architectures.
- Apple/Pixar: First in Singapore to pioneer Python USD(z) and Computer Vision AI.

Private Banking Experience Architecture Manager

Maybank-Ageas Etiqa — Singapore and Asia Pacific 2016–2018

- Delivered 20× growth in digital sales within 12 months via conversational/ML UX.
- Designed 3,000+ wealth pilots and ML models for HNW/mass-market clients.
- Established an HCD-AI practice, training C-suite executives and regional teams.

Engineering Innovation Fellow

Manulife — Singapore and Asia Pacific 2015–2016

- Established a Lean ML UX practice across 11 markets as a founding APAC hire.
- Launched first-in-market ML UX solutions in the USA, Canada, and Singapore.
- Advised APAC regional CEOs on digital growth strategies that scaled globally.

Global Engineering Architect

Mediacorp — Singapore and Asia Pacific 2014–2015

- First in Asia to ship the CNA Apple Watch app, globally featured by Apple.
- Achieved 30× MAU audience growth through mobile-first transformation.
- Built a Global Experience Language standardising IxD across 30+ products.

Senior Engineer

Leo Burnett/Publicis — Singapore and Asia Pacific 2014

- Delivered SK-II's first luxury e-commerce in the USA and across 8 APAC markets.
- Developed mobile-first apps for P&G (SK-II, Braun, Gillette) and Samsung.
- Reduced agency-wide handoff friction by 70% through code-based prototyping.

Senior Interaction Engineer

Ogilvy/WPP — Singapore and Asia Pacific 2013–2014

- Built the prototype that won Banyan Tree's multi-million-dollar agency pitch.
- Re-engineered the Singapore Stock Exchange's responsive listings portals.
- Deployed cross-platform UGC apps for Danone across 8 APAC markets.

Postgraduate Education

MSc Strategy and Innovation 2008

University of Lancashire, United Kingdom

Innovation Strategist (University Appointment) 2008–2012

University of Lancashire, United Kingdom

MIT/IDEO Design Thinking 2017–2018

Certifications in Human-Centered Design and Innovation

Apple Design Labs, Silicon Valley 2015–Present

Ongoing research in AI and spatial computing, including participation in Apple Design and Engineering Labs in Cupertino

HPI d.school, Silicon Valley 2017–2018

Human-Centered Design Prototyping Labs
